

## Great participation at SAE Congress in Brazil

The biggest event of mobility area in Latin America beat all the records of size and public. More than 9 thousand people visited the congress during three days, visiting the booths of 90 exhibitors. This year the participation of Semcon at SAE Congress was very important to strengthen the relation with the customers and potential new customers. The new brand was successfully presented to more than 1000 people that came to Semcon's booth. Besides that, there were the presentations of papers from two of Swedish Semcon colleagues. Anders Sundin and Vahik Khadagolian who were very praised by the SAE commission.
